

November Featured Learning

For many, the month of November fills us with gratitude and marks the start of family holidays. It is also the beginning of the cold and soggy days typical of Oregon's Fall and Winter seasons. This month's featured learning focuses on the acts of giving and receiving gratitude, and how to keep the slippery days ahead from causing injuries in the workplace.

Our partners at SAIF sent along a reminder, "When the going gets slippery, take a cue from an animal that lives on ice — as [this video](#) demonstrates."
